OBJECTIVE

I am a passionate Front-End Web Developer looking for a position where I can apply my creative and technical talents. I am searching for new challenges that will keep me learning every day, all the while providing a meaningful impact on the end-user experience.

WORK EXPERIENCE

FREELANCE FRONT-END WEB DEVELOPER

Denver, CO

January 2021 – Present

- Working with small businesses and individual clients to aid in the design/development of websites according to stakeholder needs, primarily through the use of HTML, SCSS/CSS, JavaScript, jQuery, PHP, Photoshop, and the Bootstrap framework.

FRONT-END WEB DEVELOPER

Darden Restaurants, Inc., Orlando, FL

May 2018 – December 2020

- Developed pages/site functionality for Darden's nine restaurant brands using HTML, CSS, JavaScript, and jQuery.
- Played a key role in the switch from an older style of website development to a more modern, responsive model by implementing the Bootstrap framework and introducing a mobile-first development cycle to the company.
- Responsible for daily support of the brands' sites, working cross-functionally with the graphic design, marketing, management, analytics, and back-end teams to keep content up to date.
- Branched outside my team to perform various tasks such as HTML email design/development, data acquisition, site auditing, PayPal integration, and API implementation.

WEB DESIGN/DEVELOPMENT INTERN

University of Central Florida, Orlando, FL

September 2017 – May 2018

- Designed, developed, and maintained the services of a website for the University of Central Florida Psychology Department's newly introduced Career Readiness Solution program.
- Built upon a WordPress theme, implementing both custom CSS and outside plugins to create various informational pages.
- Communicated with the client, other associated teams, and content writers to define and document the scope/overall design of the website.
- Prepared site wireframes to present design ideas to the project stakeholders.
